<b>Dimming</b>	Depending on compatible dimming ballast	Not dimmable at this time	Options are available
<b>Light Reversible to Fluorescent</b>	Yes	No, fixture has been modified	No, fixture has been modified
<b>Flexibility</b>	Can upgrade lamp or ballast to add more features	No interface to add more features such as dimming and controls	Can upgrade lamp or driver to add more features

# Philips UL Type A and C TLED Solutions

# Why choose Philips Type A and C TLED solutions?

Powerful reasons to switch to **Philips InstantFit, UniversalFit, or MasterConnect**

**Simple**  
installation

**Reliable lifetime**  
up to 70,000 hours <sup>2</sup>

**No visible**  
flicker

**Energy savings**  
up to 70% <sup>1</sup>

**Durable**  
Available with shatter-  
resistant polycarbonate

**RoHS**  
COMPLIANT

## 9.5W

**Highest efficiency**

Amongst the 100s of products available, we also offer the lowest wattage / highest energy savings options available in the market. \*\*

## 80%

**Industry Leading Compatibility**

We deliver the performance we promise with about 80% of fluorescent ballasts, the InstantFit line of premium lamps has been proven to work with 350 ballasts.

## 125 years

**Proven History**

The Philips brand has continually produced innovation within the lighting industry and is globally recognized for its reliability.

# Philips InstantFit

## UL Type A Solutions

Achieve the fastest ROI with a plug & play solution that works with existing ballasts

- Philips industry leading over 15K lamps + ballast combinations tested
- Available in plastic and glass tubes
- Dimmable versions available
- Many Philips Type A lamps also double as Type C

## UL Type C Solutions

The best solution for maximum performance and efficiency, ideal for rebate driven business

- Prevents “Snap-back” of conventional lamps and enables rebates
- Variety of drivers can change light output / power consumption
- Philips Type C lamps also double as Type A

MasterClass

Instant start  
(Electronic)

CorePro

TLED Driver

# Philips UniversalFit

## UL Type A Solutions

Plug & play solution with the widest range of compatibility with existing ballasts

- Operates on both magnetic and electronic ballasts
- Exceed UL pin leakage requirements
- Delivers energy savings and extended life in both configurations compared to linear fluorescent

# Philips MasterConnect

## Smart LED

Works with the Interact Pro wireless connected lighting system

- Personalized control of lighting levels
- Grouping for wireless dimming
- Integrates with wireless occupancy / daylight harvesting sensors

# Philips UL Type B TLED Solutions

# Why choose Philips Type B TLED solutions?

Powerful reasons to switch to **Philips MainsFit** or **FlexFit**

**Simple installs**  
All MainsFit lamps feature double-ended design

**Reliable lifetime**  
up to 70,000 hours <sup>2</sup>

**MainFit Max** <sup>3</sup>  
Exceeds UL pin-leakage standards 2 + unlimited installations <sup>4</sup>

**Energy savings**  
up to 69% <sup>1</sup>

**Durable**  
Available with shatter-resistant polycarbonate

**347V**  
options available

Safe to use high voltage version available making it ideal for retrofit projects in older commercial buildings

**Safety**  
and peace of mind

A lamp that is not only manufactured by a trusted name in the lighting industry, but also carries all of the industry recognized classifications and ratings to give you, and your customers the quality assurance that you both demand.

1. Compared to a 32W linear fluorescent T8 lamp, the 9.9W TLED saves 69% ((32W-9.9W)/32W = 69%) / 2. LED lifetime means the length of time (in hours) until half of the LED light sources maintain at least 70% of their initial lumen output (B50, L70)  
3. MainsFit TLEDs exceed UL pin leakage requirements of <5 M.I.U. / 4. As compared to linear fluorescent

# Philips MainsFit

## UL Type B Solutions

Bypass ballasts, thereby eliminating compatibility & maintenance issues for long term simplicity

- No ballast required
- All Philips MainsFit lamps are double-ended for simple installation
- High quality light minimizes flicker and glare
- Built-in surge protection

# Philips FlexFit

## Hybrid Type A / Type B

For maximum installation flexibility that works as a plug-and-play solution, or for re-wired Type installations

- One lamp for either Type A or Type B installations
- Double-ended Type B

# Summary

LED T8 lamp types A lamp to fit each need		
TYPE	WHY USE VS OTHER TLED TYPES	FEATURES
<b>Type A InstantFit</b> 	Fastest ROI versus other TLED types Plug-and-play	<ul style="list-style-type: none"> <li>Philips leads the industry with over 15,000 compatible lamp-ballast combinations</li> <li>Available in both plastic and glass tubes</li> <li>Dimmable versions available</li> <li>Many Philips Type A lamps double as Type C lamps</li> </ul> 
<b>Type A UniversalFit</b>  or 	Works regardless of the ballast type	<ul style="list-style-type: none"> <li>Philips UniversalFit lamp operates on both magnetic and electronic ballasts</li> <li>UniversalFit LED tubes exceed UL pin leakage requirements*</li> <li>Philips lamp delivers energy savings and extended life in both configurations compared to linear fluorescent</li> </ul> 
<b>Hybrid A+B FlexFit</b>  and 	Installation flexibility – plug-and-play or re-wire	<ul style="list-style-type: none"> <li>One lamp for either type A or Type B installation</li> <li>Philips FlexFit is a double-ended Type B</li> </ul> 
<b>Type B MainsFit</b> 	Long term simplicity	<ul style="list-style-type: none"> <li>All Philips MainsFit (UL, Type B) lamps are double-ended for simple installation</li> <li>High light quality standards minimizes flicker and glare</li> <li>Built-in surge protection</li> </ul> 
<b>Type C InstantFit</b> 	Most efficient solution Rebate driven	<ul style="list-style-type: none"> <li>Prevents "Snap-back" of conventional lamps and enables rebates</li> <li>A variety of drivers vary the light output and wattage consumption for each lamp</li> <li>Philips Type A lamps double as our Type C lamps</li> </ul> 

\*MainsFit TLEDs exceed UL pin leakage requirements of <math>5 \text{ M}\mu\text{A}</math>

# HID Replacements

Retail and atriums

Urban decorative

Warehouses

Parking Lots

Good things come in **small packages**

Philips HID replacement lamps are **SHRINKING** in 2020 & the portfolio is **EXPANDING** to fit even more applications...

# Upgrade your HID lighting to LED and benefit from **instant savings and low initial costs**

- **Hassle-free installation** for safer and faster adoption – no need to replace existing fixture
- **Sustainability** – low energy consumption
- **Enhance comfort, safety and productivity**
- **Low heat dissipation** – provide a cooler environment and reduce air-conditioning cost

## Powerful reasons to switch from HID to LED

**Energy savings**  
up to 75%

**Direct LED replacement solution** without replacing the fixture

**Reliable lifetime**  
up to 50.000 hours

**Optically efficient,**  
emits light towards usage direction

# Philips LED Corn Cob HID Replacement Lamps

- **Brighter, lightweight, high performance lighting** to suit your application specific needs
- **High Lumen** output options available
- **No visible flickering** or stroboscopic effect
- **Colour consistency** over long life
- **UL Type B** lamps allows installer to bypass the ballast and reduce maintenance costs
- Mogul-based (EX39) lamps are **DLC rated**

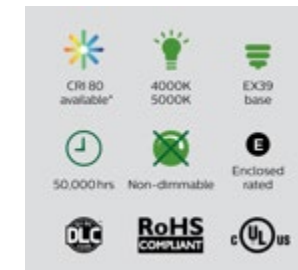

## CorePro LED Corn Cob

- **Passive cooling system** – eliminates fan noise and reduces moving parts which require additional maintenance over time
- Offered in both mogul-based (EX39) and medium-based (E26) options
- Delivers up to 250W replacements

## MasterClass LED Corn Cob

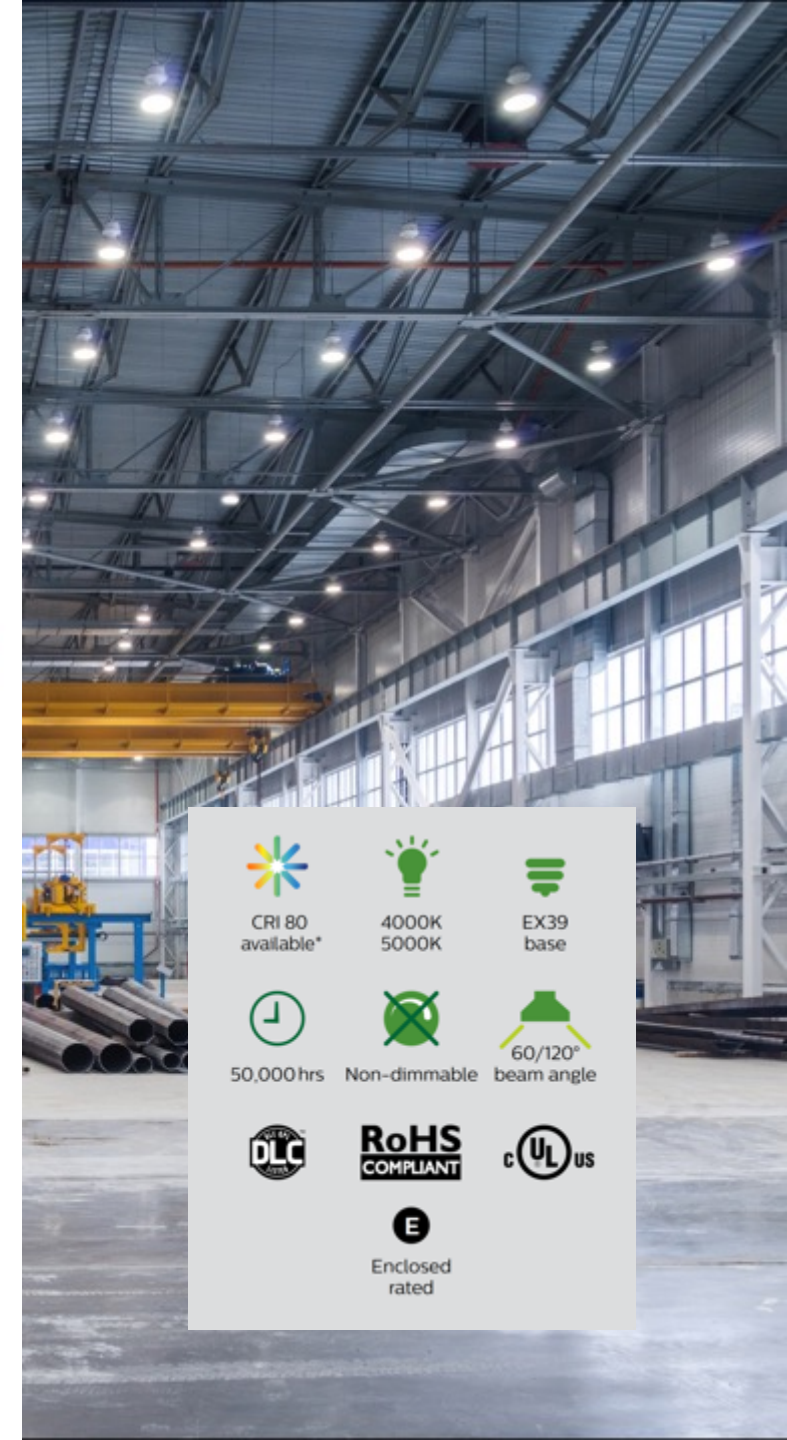

- **Active Cooling** thermal system
- **Fits within industry ANSI outline** offering perfect fit in all HID fixtures
- Delivers up to 400W replacements

# Philips TrueForce LED

## UL Type B High Lumen Lamp

- **Direct LED replacement** solution without having to change the fixture
- **Instant on** – no warm-up time
- **Standard Mogul base (EX39)** to replace E and O rated metal halide lamps
- **UL Type B lamps** – Ballast bypass takes ballast maintenance out of the equation
- **Narrow and wide beam options** to ensure uniform light distribution in application
- **50,000 hour LED lifetime** vs. a typical 20,000 hour rated average life for metal halide lamps

 CRI 80 available*	 4000K 5000K	 EX39 base
 50,000 hrs	 Non-dimmable	 60/120° beam angle
		
 Enclosed rated
