Emergency Field Bed Overview

EMERGENCY FIELD BED

The emergency field bed is designed for emergency medical response. It ships fully assembled and fold out for quick set up. The EFB-3000 comes equipped with essential side rails that are removable that provide protection for the patients as well as act as a guide for the mattress. This emergency field bed also is fitted with a removable headboard and footboard and an IV stand that can be placed on the right or left side of the bed.
